SUBJECT:—*Import licences for Artificial Silk Yarn for January-June 1951 from the soft currency area and Japan.*

No. 172-I.T.C. (P.N.)/50.—The attention of Importers is invited to the remarks against Serial No. 177 of Part IV of Appendix 'C' to Public Notice No. 150-I.T.C.(P.N.)/50 dated the 15th December 1950 in which it is indicated that a separate Public Notice will issue concerning the licensing of Artificial Silk Yarn from Japan and soft currency countries for the period January-June 1951.

2. It has been decided that both Licences for Japan and Soft Currency Licences will be issued for the commodity in question, and that such Licences will issue to the following categories of applicants only:—

- (a) The Bombay Silk and Art Silk Mills Association, the Textile Manufacturers Association, Amritsar, and the Bengal Silk and Art Silk Mills Association on behalf of their member mills. Such member mills should, therefore, not apply separately for licences.
- (b) Consuming mills, manufacturing artificial silk cloth, which are not the members of the above Associations.
- (c) Mills containing power driven spindles for twisting, but which do not contain looms for weaving.
- (d) Other consuming mills and factories requiring Artificial Silk Yarn for making borders, embroidery, hosiery, lace and braid.
- (e) Factories making gas mantles.
- (f) Small handloom and Handloom Co-operative Societies.
- (g) Established importers.

z

2. Applications should be made out in the form and manner prescribed in the Ministry of Commerce Public Notice No. 150-I.T.C. (PN)/50 dated the 15th December 1950 and submitted by the dates fixed in that Public Notice.

3 Applicants of categories (a), (b), (c), (d), (e) and (f) should apply to the Chief Controller of Imports, New Delhi, and applicants of category (g) should apply to the Import Trade Controllers at the ports.

4. In the case of applicants of categories (a) and (b), Licences for Japan will be issued to the extent of Rs. 264 per power loom and Soft Currency Licences to the extent of Rs. 2,654 per power loom.

5. Applicants of the above categories (a) and (b) will have the option of importing twisted yarn to the extent of 10 per cent. of the value of licences issued to them. Twisted yarn may not be imported against the balance of the licence. Each licence will bear an endorsement to this effect.

6. Applicants of category (a) should enclose with their applications a certificate from the Director General of Industries and Supplies, the Director of Industries of the State concerned or the Textile Commissioner showing the number of looms contained in the mills of their constituent members in addition to the usual Certificate of Manufacturing Capacity and actual requirements. A treasury receipt should accompany the application equal in value to the total of the applications fees which the members would have been required to pay if they had applied separately for the amounts allocated to them. The Income-tax Registration or Exemption Numbers allotted to each member mill should also be quoted by the applicants, and these will be verified before the licence is issued to the Associations concerned. Where a member mill does not hold a valid Income-tax Verification Certificate Registration or Exemption No., the amount of the licence admissible to it will be subtracted from the licence admissible to the Association on behalf of all its members. It will be a condition of licences granted to applicants of category (a) that they will distribute the licences *pro rata* to their loomage in favour of the member mills in respect of whom the licence has been given.

7 Applicants of category (b) should enclose with their applications a certificate issued by the D. G. I. & S., the State Director of Industries or the Textile Commissioner, indicating the number of looms in the mill, in addition to the usual certificate of manufacturing capacity and actual requirements.

8. Applicants of category (c) will be granted licences for Japan to the extent of Rs. 26 per spindle and soft currency licences to the extent of Rs. 265 per spindle. Such applicants should enclose with their applications a certificate issued by the D. G. I. & S., the State Director of Industries or the Textile Commissioner stating the number of spindle in the mill and confirming the fact that the mill contains no looms, in addition to the usual certificate of manufacturing capacity and actual requirements.

9. Licences will issue to applicants of category (d) to the extent of $16 \frac{2}{3}$ per cent of their six monthly requirements as certified by the D. G. I. & S., State Director of Industries, or the Textile Commissioner. Licences for Japan will issue to the extent of $1/10$ th of the total licences thus admissible to them, and the balance will take the form of Soft Currency Licences. Such applicants should specify clearly in their applications the particular uses for which Artificial Silk Yarn is required by them, i.e., whether for making borders, embroidery, hosiery, lace or braid. The certificates of manufacturing capacity and actual requirements obtained by them from the D. G. I. & S., the State Director of Industries, or the Textile Commissioner should also state the particular uses to which they will put the Art. Silk Yarn in question.

10. Applicants of category (e) will be granted their six months, requirements as certified by the appropriate authority. One-tenth of the value of the licences admissible to them will be in the form of Licences for Japan and the balance will be in the form of Soft Currency Licences.

11. Licences for Japan will be granted to applicants of category (f) to the extent of Rs. 18 per handloom and Soft Currency Licences at the rate of Rs. 176 per handloom. Applicants of this category should submit with their applications a certificate from the D. G. I. & S., the State Director of Industries, the Textile Commissioner, or the Registrar or the Assistant Registrar of Co-operative Societies in the State concerned, certifying the number of handlooms covered by the Co-operative Society in question, in addition to the usual certificate of Manufacturing Capacity and actual requirements.

12. Applicants of category (g) should supply evidence in support of their past imports as usual. Licences to such applicants will be issued on soft currency countries on a quota basis of 55 per cent of half of their best year's imports from all sources excluding Japan. Licences will be issued on Japan on a quota basis of 20 per cent of half of their best year's imports from Japan alone. Applicants of this category will be granted licences subject to the express condition that Yarn imported by them will be supplied to handlooms only. This condition will be endorsed on the licences.

13. All Licences for Japan issued in accordance with this Public Notice will be made valid to cover imports from Soft Currency Licensing Area as well as from Japan.
